U-Lock

LK30125

Features

- 12 mm hardened steel shackle
- Double deadbolt provides additional protection against cut and twist
- Sliding dust cover against dirt and scatter pieces into the key access
- 3 keys included
- Transit bracket included
- High security disc-style cylinder is pick and drill resistant

Certification

LK38006

Spec Data

LK33001

Features

- 14 mm hardened steel shackle
- Double deadbolt provides additional protection against cut and twist
- Sliding dust cover against dirt and scatter pieces into the key access
- 3 keys included
- Transit bracket **LK38006** included
- High security disc-style cylinder is pick and drill resistant

Certification

LK38006

Features

- 6 mm steel chain links
- Nylon sleeve to protect frame from scratches
- 2 keys included
- Disc-style cylinder

Spec Data

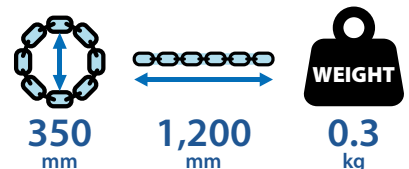

LK30425

Features

- 3 mm steel chain links
- 3-digit resettable combination provides keyless security
- Nylon sleeve to protect frame from scratches
- High visible large number dials

Spec Data

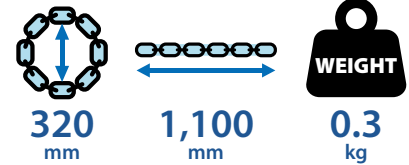

LK30427

Features

- 3 mm steel chain links
- 4-digit resettable combination provides keyless security
- Nylon sleeve to protect frame from scratches
- High visible large number dials

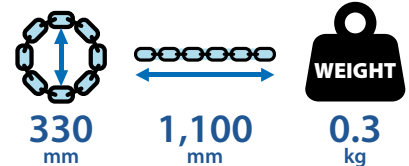

Spec Data

Features

- 3 mm steel chain links
- 4-digit resettable combination provides keyless security
- Nylon sleeve to protect frame from scratches
- High visible large number dials

Spec Data

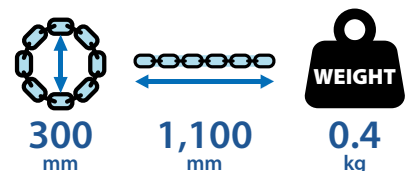

LK30628

Features

- 4 mm steel chain links
- 4-digit resettable combination provides keyless security
- Nylon sleeve to protect frame from scratches
- High visible large number dials

Spec Data

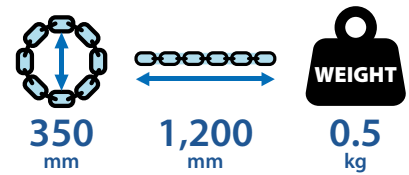

Features

- 4.5 mm steel chain links
- Nylon sleeve to protect frame from scratches
- 2 keys included
- Disc-style cylinder

Spec Data

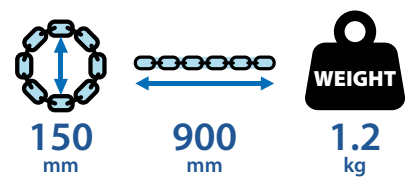

LK30424

Features

- 8 mm steel chain links
- Nylon sleeve to protect frame from scratches
- Dust cover design
- New end link design secures the chain with the hardened deadbolt
- 2 stainless steel keys included
- Disc-style cylinder

Spec Data

LK36001

Cable Lock

LK30856

Features

- Strong locking mechanism for pick resistance
- Protective coating to prevent scratching
- Versatile for bikes, tools sport equipment and any others need security
- Optional with bike mount
- 2 keys included

Spec Data

mm

900/1,800
mm

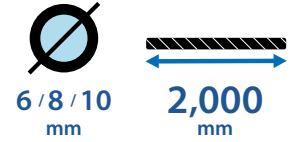

LK30143

Features

- Dependable strength and security design
- Multi-use cable lock for any number of other locking cinching applications
- Corrosion-resistant and scratch-resistant design
- 2 keys included
- Disc-style cylinder
- Detachable cable for optional length

Spec Data

Features

- Dependable strength and security design
- Multi-use cable lock for any number of other locking cinching applications
- Corrosion-resistant and scratch-resistant design
- 2 keys included
- Disc-style cylinder

LK30147

Spec Data

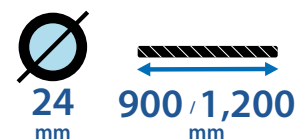

Features

- Dual steel cable design for higher cut resistance and security
- Strong locking mechanism for pick resistance
- Protective coating to prevent scratching
- Optional with reflective safety design
- 2 keys included

LK30177

Spec Data

LK30633

Features

- Flexible steel cable designed for multi-purpose
- Corrosion-resistant and scratch-resistant cable
- 4-digit resettable combination with 10,000 possibilities
- Strong and secure
- High visible large number dials

LK30972 LK30979

Spec Data

LK30657

Features

- Flexible steel cable designed for multi-purpose
- Corrosion-resistant and scratch-resistant cable
- 4-digit resettable combination with 10,000 possibilities
- Strong and secure
- High visible large number dials

LK30972 LK30979

Spec Data

LK30433

Features

- Flexible steel cable designed for multi-purpose
- Corrosion-resistant and scratch-resistant cable
- 4-digit resettable combination with 10,000 possibilities
- Portable and secure
- High visible large number dials

Spec Data

Double Loop Lock

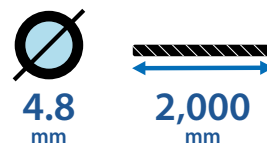

LK30643

Features

- Double loop design secures multiple items at once
- Adjustable locking mechanism holds the cable tight at any position for a perfect fit
- Corrosion-resistant and scratch-resistant cable
- Optional with silicone sleeve for complete scratch resistance
- Custom keyed solutions
- 2 keys included
- Tubular-style cylinder
- Detachable cable for optional length

Spec Data

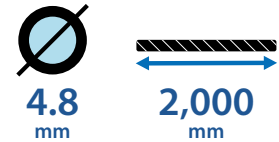

LK30646

Features

- Double loop design secures multiple items at once
- Adjustable locking mechanism holds the cable tight at any position for a perfect fit
- Optional with silicone sleeve for complete scratch resistance
- 4-digit resettable combination design
- Visible number dials
- Detachable cable for optional length

Spec Data

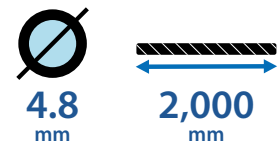

LK30647

Features

- Double loop design secures multiple items at once
- Adjustable locking mechanism holds the cable tight at any position for a perfect fit
- Corrosion-resistant and scratch-resistant cable
- 3-digit resettable combination design
- Visible number dials
- Detachable cable for optional length

Spec Data

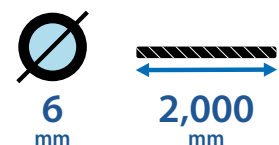

LK30649

Features

- Double loop design secures multiple items at once
- Compact and durable makes easy storage in any condition
- Corrosion-resistant and scratch-resistant cable
- 3-digit resettable combination design
- Visible number dials
- Detachable cable for optional length

Spec Data

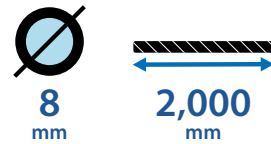

Features

- Double loop design secures multiple items at once
- Patented adjustable locking mechanism holds the cable tight at any position for a perfect fit
- Multi-use cable lock for any number of other locking cinching applications
- Complete corrosion-resistant and scratch-resistant design
- 2 keys included
- Disc-style cylinder
- Detachable cable for optional length

Spec Data

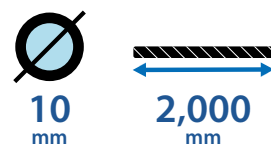

LK30672

Features

- 8 mm steel chain links
- Nylon sleeve to protect frame from scratches
- Dust cover design
- New end link design secures the chain with the hardened deadbolt
- 2 stainless steel keys included
- Disc-style cylinder
- Detachable cable for optional length

Spec Data

LK30675

Multi-Use Cable Lock

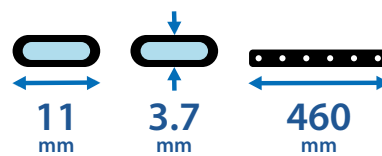

LK31002

Features

- Ultra-lightweight and small but offers dependable security for mid-stop
- A cutting-edge design in security with a multitude of applications
- Optimal locking range
- 3-digit resettable combination design
- Visible number dials

Spec Data

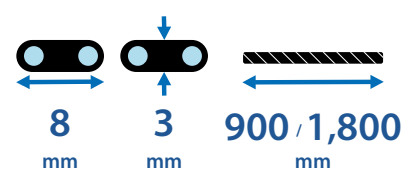

LK33001

Features

- Dual steel cable design for higher cut resistance and security
- Compact and durable makes easy storage in any condition
- Ultra-lightweight and small but offers dependable security for multipurpose
- 3-digit resettable combination design
- Visible number dials

Spec Data

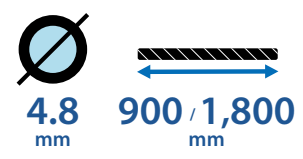

LK33002

Features

- Compact and durable makes easy storage in any condition
- Ultra-lightweight and small but offers dependable security for multipurpose
- Corrosion-resistant and scratch-resistant cable
- 3-digit resettable combination design
- Visible number dials

Spec Data

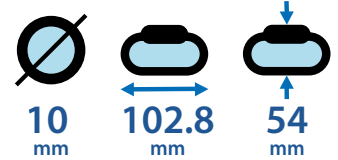

LK30171

Features

- Built to withstand pressure and tampering
- Provide more versatility and higher security with steel cable
- Convenient and portable
- 4-digit resettable combination design
- High visible large number dials

Spec Data

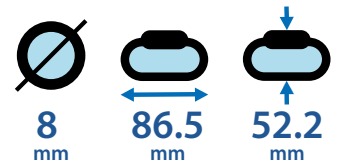

Features

- Built to withstand pressure and tampering
- Provide more versatility and higher security with steel cable
- Convenient and portable
- 4-digit resettable combination design
- High visible large number dials

Security Lock Box

Features

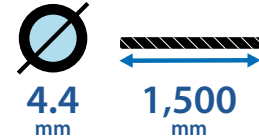

- Small safe for security from theft during outdoor activity or in dormitory, office and more
- Secure to a fixed object with steel cable
- Large capacity to protect multiple valuables
- Portable to carry and easy to use
- 4-digit resettable combination design
- Visible number dials

LK31002

Spec Data

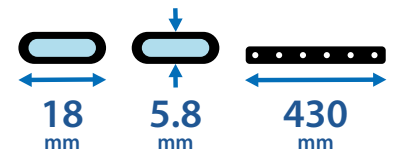

Features

- Heavy-duty flexible dual-steel cable to securely lock around fixed object
- Rust-resistant, impact-resistant, and water-resistant
- Open safe using either resettable 3-digit custom combination code or unique key
- Perfect for beaches, pools, hotels, colleges, home, office, cruises, parks, and more.
- Tubular-style cylinder
- Visible number dials

LK30999

Spec Data

Features

- Spacious Interior
- Adjustable steel cable to securely lock around fixed object
- Rust-resistant, impact-resistant, and water-resistant
- Open safe using either resettable 3-digit custom combination code or unique key
- Perfect for beaches, pools, hotels, colleges, home, office, cruises, parks, and more.
- Tubular-style cylinder
- Visible number dials
